# Everyday List – User Manual

## Overview

**Everyday List** is a simple web-based app to help you manage your grocery and daily shopping items with an estimated total cost calculation. It also features a **Dark/Light Mode toggle** with a smooth animated sun/moon icon to enhance your viewing experience.

## Features

- **Add Grocery/Daily Items:** Quickly add grocery or daily life items by typing the item name and pressing the *Add* button or Enter key.
- **Dynamic Price Calculation:** The app automatically calculates the total estimated cost of your list based on predefined prices for common items.
- **Price Book Management:** View and update prices for each item via the *Price Book*. Add new items by entering their price when prompted.
- **Price Breakdown:** Click on the *Total Estimated Cost* to see a detailed breakdown of individual item prices in your list.
- **Remove Items:** Easily remove items from your list by clicking the ❌ button next to each item.
- **Dark Mode / Light Mode Toggle:** Toggle between dark and light themes by clicking the sun/moon icon at the top-left. The app follows your system's preferred color scheme on first load and remembers your choice.

## How to Use

### Adding Items

1. Type the name of the grocery or daily item in the input box at the top.
2. Press *Add* or hit *Enter* on your keyboard.
3. The item appears in your list below.
4. If the item does not have a saved price, you will be prompted to enter its price. You can save or skip this step. If skipped, the item is removed from the list.

### Viewing and Managing Prices

1. Click the 🛠️ *Price Book* button at the bottom.
2. A modal appears showing all items with their current prices.

3. Edit prices directly in the input fields. Changes save immediately and update the total cost.

## Checking Total and Breakdown

Click the total estimated cost amount (e.g., ₹200) to open a modal showing each item with its individual price.

## Removing Items

Click the red ❌ button next to any item in the list to remove it.

## Dark Mode Toggle

The toggle button is located at the **top-left corner** as a sun/moon icon. Click it to switch between Dark Mode and Light Mode. Your choice is saved and applied on future visits. By default, the app respects your system's color scheme preference.

# Notes

*Prices and tasks are stored locally in your browser, so your data persists between visits on the same device.*

*To reset or clear data, clear your browser's local storage for this site.*
